KAYLA YOUNG

Senior QA Engineer | AI Workflows & Internal Tools

Bentonville, AR | Remote | kayla@snackdriven.com
snackdriven.com/portfolio | linkedin.com/in/snackdriven | github.com/snackdriven

SUMMARY

Senior QA Engineer with 6+ years of experience investigating software behavior and improving how QA work gets done. Designs and tests AI-assisted workflows and internal tools, from gathering context to reviewing results and handing off clear findings.

EXPERIENCE

Chorus Innovations
Apr 2023 - Present | Remote

Senior QA Engineer
Sep 2026 - Present

- Directed a four-day AI-assisted staging QA investigation, reviewed the evidence, and organized 250 documented findings into 23 recurring patterns to help product and engineering prioritize data risks.

Senior QA Specialist
Sep 2024 - Sep 2026

- Tested conditional forms, role-based workflows, and data persistence through save and refresh cycles.
- Designed a personal release-reporting workflow that combined Jira status, GitHub pull requests, and release discussions into Google Docs and Confluence updates used by colleagues.

Software QA Specialist
Apr 2023 - Sep 2024

- Tested applications across a React and GraphQL stack and a legacy no-code platform.

Ultranauts Inc
Feb 2020 - Feb 2023 | Remote

Software Quality Engineer II
Oct 2021 - Feb 2023

- Planned exploratory and regression testing for multi-role workflows and complex business rules; identified where automation would justify its maintenance cost.

QA Tester / Software QA Engineer I
Feb 2020 - Sep 2021

Manual and exploratory testing across client projects.

SELECTED PROJECTS

> **Personal QA Workflow.** Designed test-preparation runbooks and review steps that flag missing context. Changed Kanban lanes from ownership to pipeline stages after testing the board in use.

> **AL80 Studio.** Directed AI-assisted implementation of a keyboard control panel. Investigated an image transfer that reported success but showed the old picture; confirmed the display fix on hardware.

> **Felt Presence.** Shaped an illustrated reader for a fictional haunted craft shop, refining seasonal details, visual balance, and the flow of opening and reading a letter.

SKILLS & TOOLS

QA: Exploratory and regression testing, test planning, defect investigation, risk prioritization

AI workflows: Workflow design and orchestration, output verification, tool configuration, Model Context Protocol (MCP)

Tools & technologies: Playwright (AI-assisted investigation), Git, Jira, GitHub Actions, GraphQL, SQL familiarity
