SUMMARY

QA professional with 6+ years of experience making complicated software easier to understand and trust. I turn recurring friction into useful tools, direct AI-assisted implementation, and test beyond the convincing first preview. My work spans QA investigation, workflow design, and hands-on product refinement.

EXPERIENCE

Chorus Innovations
Apr 2023 - Present | Remote

Senior QA Engineer
Sep 2026 - Present

- Directed and reviewed a four-day AI-assisted staging investigation, organizing 250 documented findings into 23 recurring patterns and prioritizing data risks and unresolved product decisions.
- Designed personal workflows for QA preparation, investigation, and evidence review. Historical release documents produced through one workflow were used by colleagues.

Senior QA Specialist
Sep 2024 - Sep 2026

- Tested complex workflows and developed reusable documentation, checklists, and tools around recurring QA work.

Software QA Specialist
Apr 2023 - Sep 2024

- Tested applications across a React and GraphQL stack and a legacy no-code platform.

Ultranauts Inc
Feb 2020 - Feb 2023 | Remote

Software Quality Engineer II
Oct 2021 - Feb 2023

- Scoped exploratory and regression coverage across client products with multi-role workflows and complex business rules.
- Assessed where automation would provide useful coverage relative to its maintenance cost.

SQA Engineer I & Tester
Feb 2020 - Sep 2021

- Performed manual and exploratory testing across multiple client projects.

SELECTED PROJECTS

> **Personal QA Workflow.** Turned scattered context into preparation packets with clear review steps and missing-input states. Redesigned Kanban lanes around how work actually moved.

> **AL80 Studio.** Shaped a keyboard control panel through AI-assisted implementation and physical-device testing. Traced an acknowledged image transfer to a display that still showed the old picture.

> **Felt Presence.** Directed an illustrated reader for a fictional haunted craft shop, refining seasonal details, composition, and reading flow so the atmosphere supported the story.
