KAYLA YOUNG

Senior QA Engineer | AI Workflows & Internal Tools

Bentonville, AR | Remote | kayla@snackdriven.com
snackdriven.com/portfolio | linkedin.com/in/snackdriven | github.com/snackdriven

SUMMARY

Senior QA Engineer with 6+ years of experience investigating complex software and designing practical QA workflows. Combines exploratory testing, evidence review, and AI-assisted implementation to turn scattered context into useful tools and actionable findings.

EXPERIENCE

Chorus Innovations
Apr 2023 - Present | Remote

Senior QA Engineer
Sep 2026 - Present

- Directed and reviewed a four-day AI-assisted staging investigation: 250 documented findings grouped into 23 patterns, with data risks and coverage limits prioritized for handoff.

Senior QA Specialist
Sep 2024 - Sep 2026

- Tested conditional forms, role-based workflows, and data persistence through save and refresh cycles.
- Designed a personal release-visibility workflow combining ticket status, pull-request activity, and release discussions into Google Docs and Confluence documents used by colleagues.

Software QA Specialist
Apr 2023 - Sep 2024

- Tested applications across a React and GraphQL stack and a legacy no-code platform.

Ultranauts Inc
Feb 2020 - Feb 2023 | Remote

Software Quality Engineer II
Oct 2021 - Feb 2023

- Scoped exploratory and regression coverage for multi-role workflows and complex business rules; assessed automation value against maintenance cost.

QA Tester / Software QA Engineer I
Feb 2020 - Sep 2021

Manual and exploratory testing across client projects.

SELECTED PROJECTS

> **Personal QA Workflow.** Defined preparation packets, evidence-review steps, and visible missing-input states. Redesigned Kanban lanes around how work actually moved.

> **AL80 Studio.** Directed AI-assisted implementation and tested a keyboard control panel on hardware. Investigated stale-image behavior and validated timing and view-switch corrections on the device.

> **Felt Presence.** Directed an illustrated reader for a fictional haunted craft shop, refining seasonal details, composition, and reading flow.

SKILLS & TOOLS

QA: Exploratory testing, regression coverage, test planning, evidence review, risk prioritization

Workflow implementation: AI-assisted implementation, tool configuration, Model Context Protocol (MCP)

Tools & technologies: Playwright (AI-assisted investigation), Git, Jira, GitHub Actions, GraphQL, SQL familiarity
